**4th
Annual**

Emergency Medical Services for Children Conference

**Special Circumstances,
Special Patients,
Special Care**

June 27 - 28, 2003

LaSells Stewart Center
Oregon State University Campus
100 LaSells Stewart Center
Corvallis, OR 97331

Joint Sponsorship with:

Oregon Health and Science University,
Department of Human Services, EMS & Trauma Systems Section

Funded by:

US Dept. of Health & Human Services EMSC Grant
H33 MC 00072-03

EMSC Overview

The Emergency Medical Services for Children (EMSC) program began in 1984. Oregon has been actively involved since its inception. EMSC is administered at the federal level by the Health Resources and Services Administration (HRSA) and is funded via grants awarded to state EMSC programs by the U.S. Department of Health and Human Services. The annual grant is intended to enhance the pediatric prevention and emergency medical infrastructure already in place. The conference is one approach to achieving that goal.

EMSC is also involved in collaborative projects with American Heart Association, Oregon Chapter of American College of Emergency Physicians, and Oregon Safe Kids.

Conference Description

The EMSC Conference will present the most current clinical information available about emergent care of the pediatric patient. We have assembled an outstanding faculty who are on the front line of providing emergency care to children. The EMSC Conference will address care issues that occur in rural, suburban and urban areas for children of all ages and socioeconomic groups. Through dual-track lectures and discussions with colleagues, this conference provides excellent educational sessions for physicians, nurses, emergency medical technicians, and allied health professionals.

Conference Objectives

Upon completion of this conference, the participant will have enhanced knowledge of:

- critical decisions in the management of the pediatric patient with emergency care problems.
- new approaches to the diagnosis and management of complex issues in the pediatric patient.
- management of complicated yet common pediatric illnesses and their sequelae.
- pertinent issues in the management of acutely ill children.
- critical decision making and its impact on team effectiveness.

Continuing Education Credit

Accreditation: This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Oregon Health & Science University and the Department of Human Services. OHSU is accredited by the ACCME to provide continuing medical education for physicians.

American Medical Association: OHSU School of Medicine designates this educational activity for a maximum of 13 Category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually earned in the educational activity.

EMT Continuing Education Credit: Oregon Emergency Medical Services will provide 14 hours of CEUs for EMTs.

Nursing Continuing Education Credit: Pending
